

BARCELONA POOL HOUSE

SOHO HOUSE
ART COLLECTION

Introduction by Kate Bryan

Chief Art Director

The art collection comprises nearly 30 artists who are born, based or trained in Barcelona and was curated by our Chief Art Director Kate Bryan. Comprising over 80 artworks on permanent display, the collection features museum level names such as Eva Fàbregas and Regina Giménez as well as emerging talent including Ana Monsó, Josep Maynou and Rita Sala.

The site's preexisting historic murals and decorative motifs provide an interesting juxtaposition for these contemporary artists. Several works have been commissioned or selected to sit alongside the restored wall and ceiling decorations such as Eva Fàbregas' "Polifilia" series on paper in the parlour and Madison Tyrell's oil painting which feel evocative of the original garden frescoes nearby. The study includes several works which approach portraiture in a variety of ways including small snapshot-like paintings by Wang Pei. Several artists have been selected on the basis that their work has a distinct historical quality such as the Chidy Wayne pair that face each other in the lounge. Other artists reimagining art history are Rita Sala and Anna McNeil who each create work that plays with the distinction between abstraction and figuration. Some works are literally historic Catalan names – the well known photographs of Xavier Miserachs and a print by one of the city's masters, Antoni Tàpies.
