Introduction by Sara Terzi

Soho House Senior Art Collections Manager

The art collection at Soho House Bangkok features the work of 33 artists born or based in Thailand.

The aim of this collection was to reflect the diversity of the contemporary art scene in Bangkok – and more generally in Thailand – by including artists working in different mediums and at different stages of their careers. The artists’ practices touch upon a wide range of themes, such as womanhood, spirituality, global warming, gender identity, interpretations of folklore and myth, and post-pandemic societal issues.

The intimate scale of the House allowed us to think and utilise the space differently, be that in the positioning of a unique installation piece by Aracha Cholitgul under the staircase or by commissioning a site-specific artwork from Pannaphan Yodmanee, which is seamlessly placed in the atrium vaulted ceiling.

The works in the collection draw from traditional themes and techniques, and have been given a fresh interpretation, with many of the artists exploring what it means to be Thai today.

SOHO VISIONARIES

POWERED BY PORSCHE

The Soho Visionaries series, powered by Porsche, amplifies the voices of local artists and members who are driving culture forward. Together, Soho House and Porsche have commissioned site-specific works that visually embrace the Porsche ethos of bringing dreams to life.

The series is supported by events that celebrate Soho House's creative community, and inspire imagination through art workshops, talks and immersive experiences around the world.

'Working across painting, photography and sculpture, the three artists selected for Soho Visionaries may have distinct practices, but they all share a commitment to rethinking the world around us. At heart they are storytellers, and the works they have created as part of this initiative with Porsche will be permanent reminders that art allows us to dream and see beyond the expected. Look out for more commissions coming to our Houses soon.'
